STAGE IN THE BUYER JOURNEY

Transactions

Help customers with everyday financial transactions to boost customer engagement — and your bottom line.

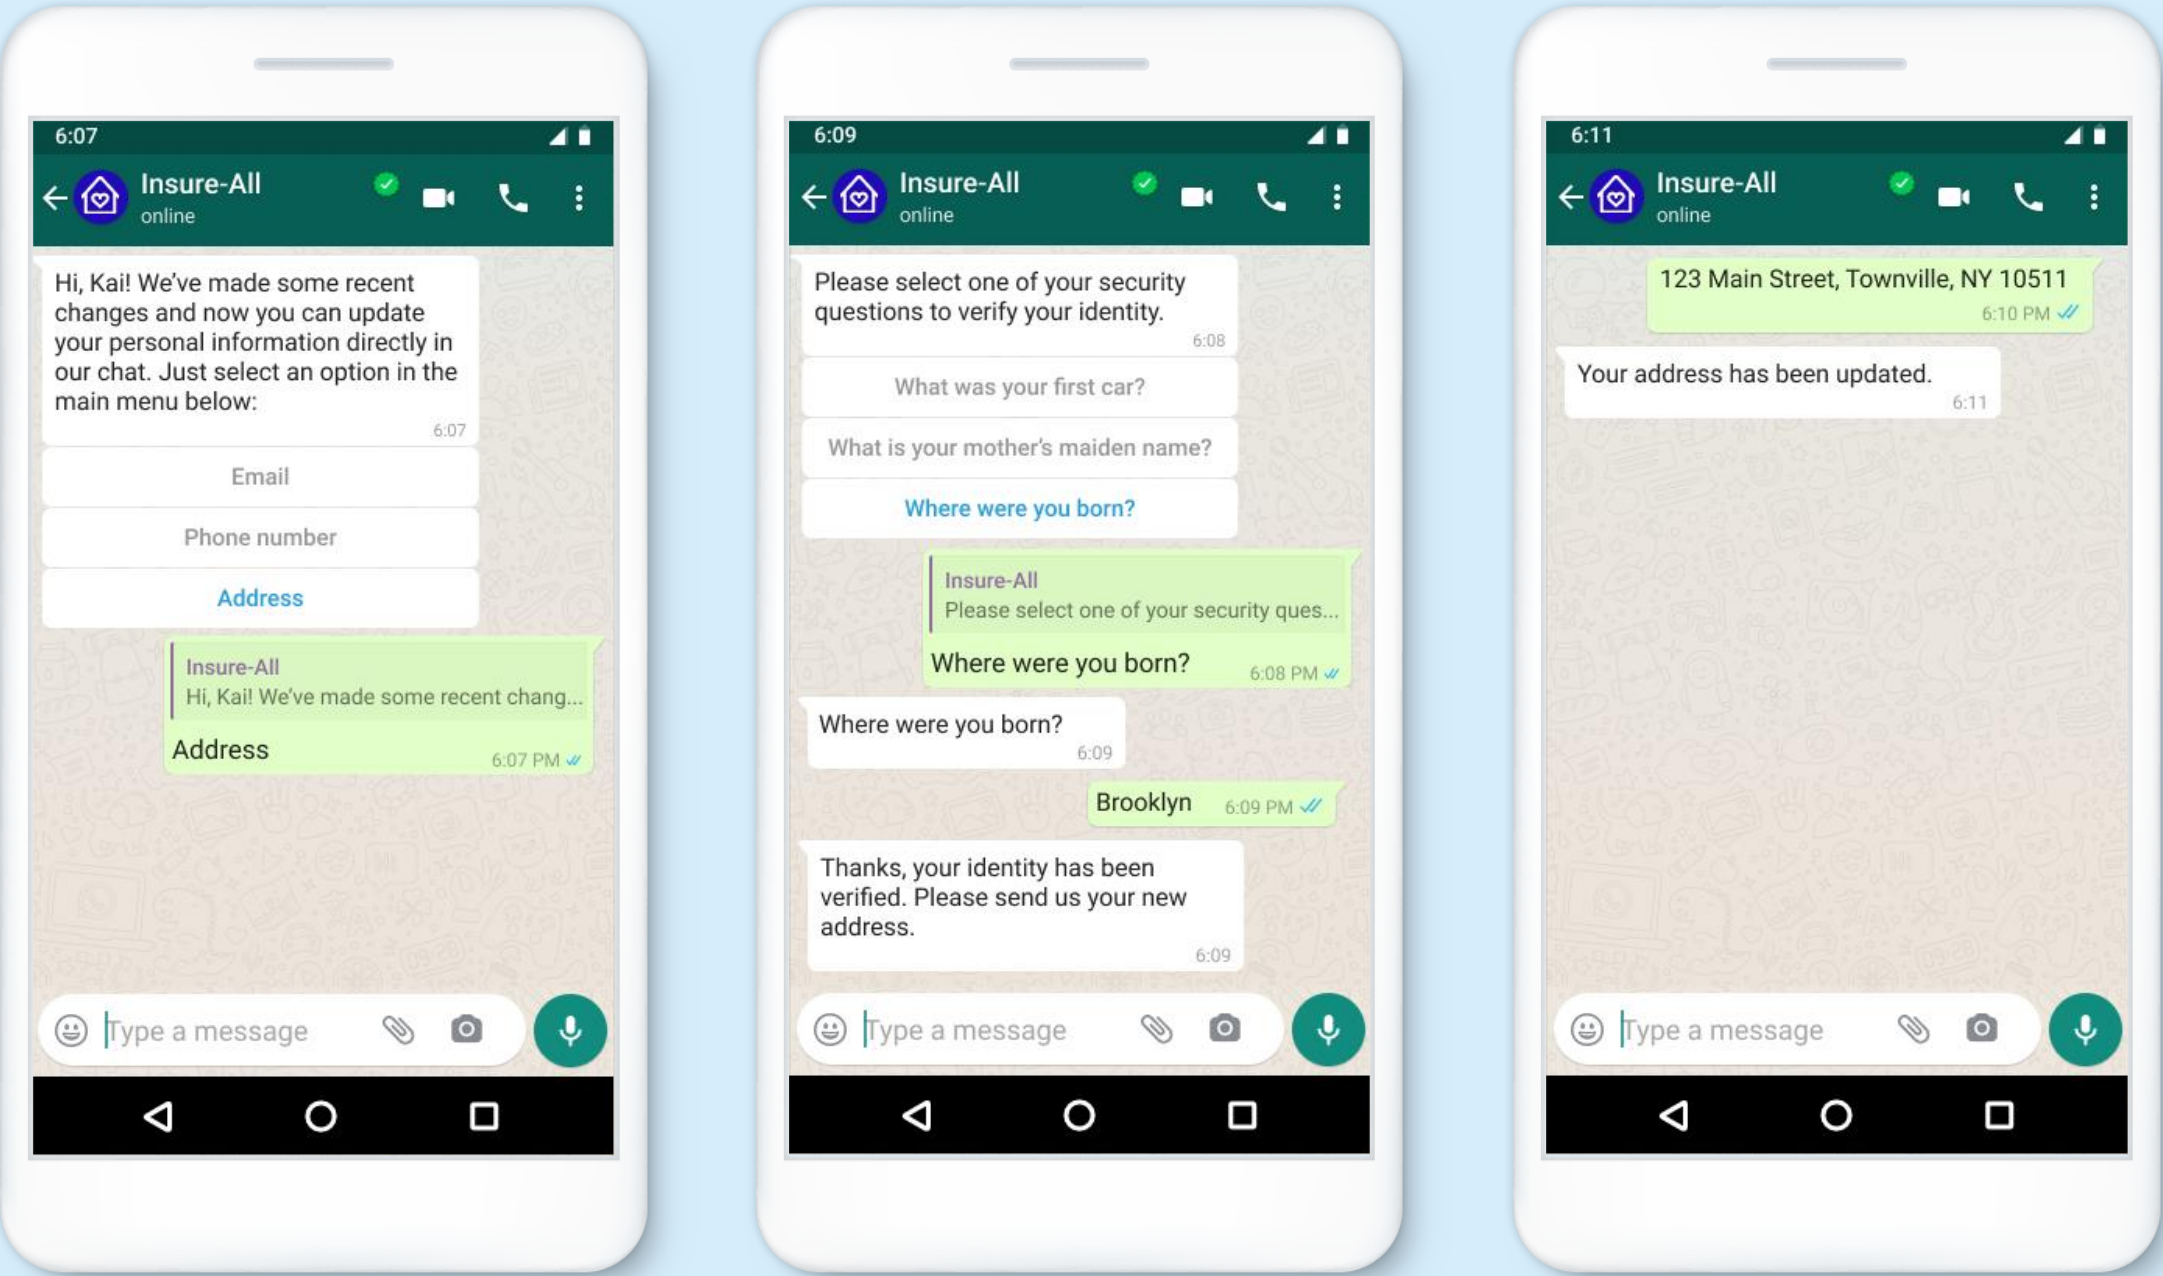

Transactions

use case:

User needs to update their account address

Make it easy for customers to update their contact information.

A financial services organization reaches out to a customer to let them know they can update relevant information directly in WhatsApp.

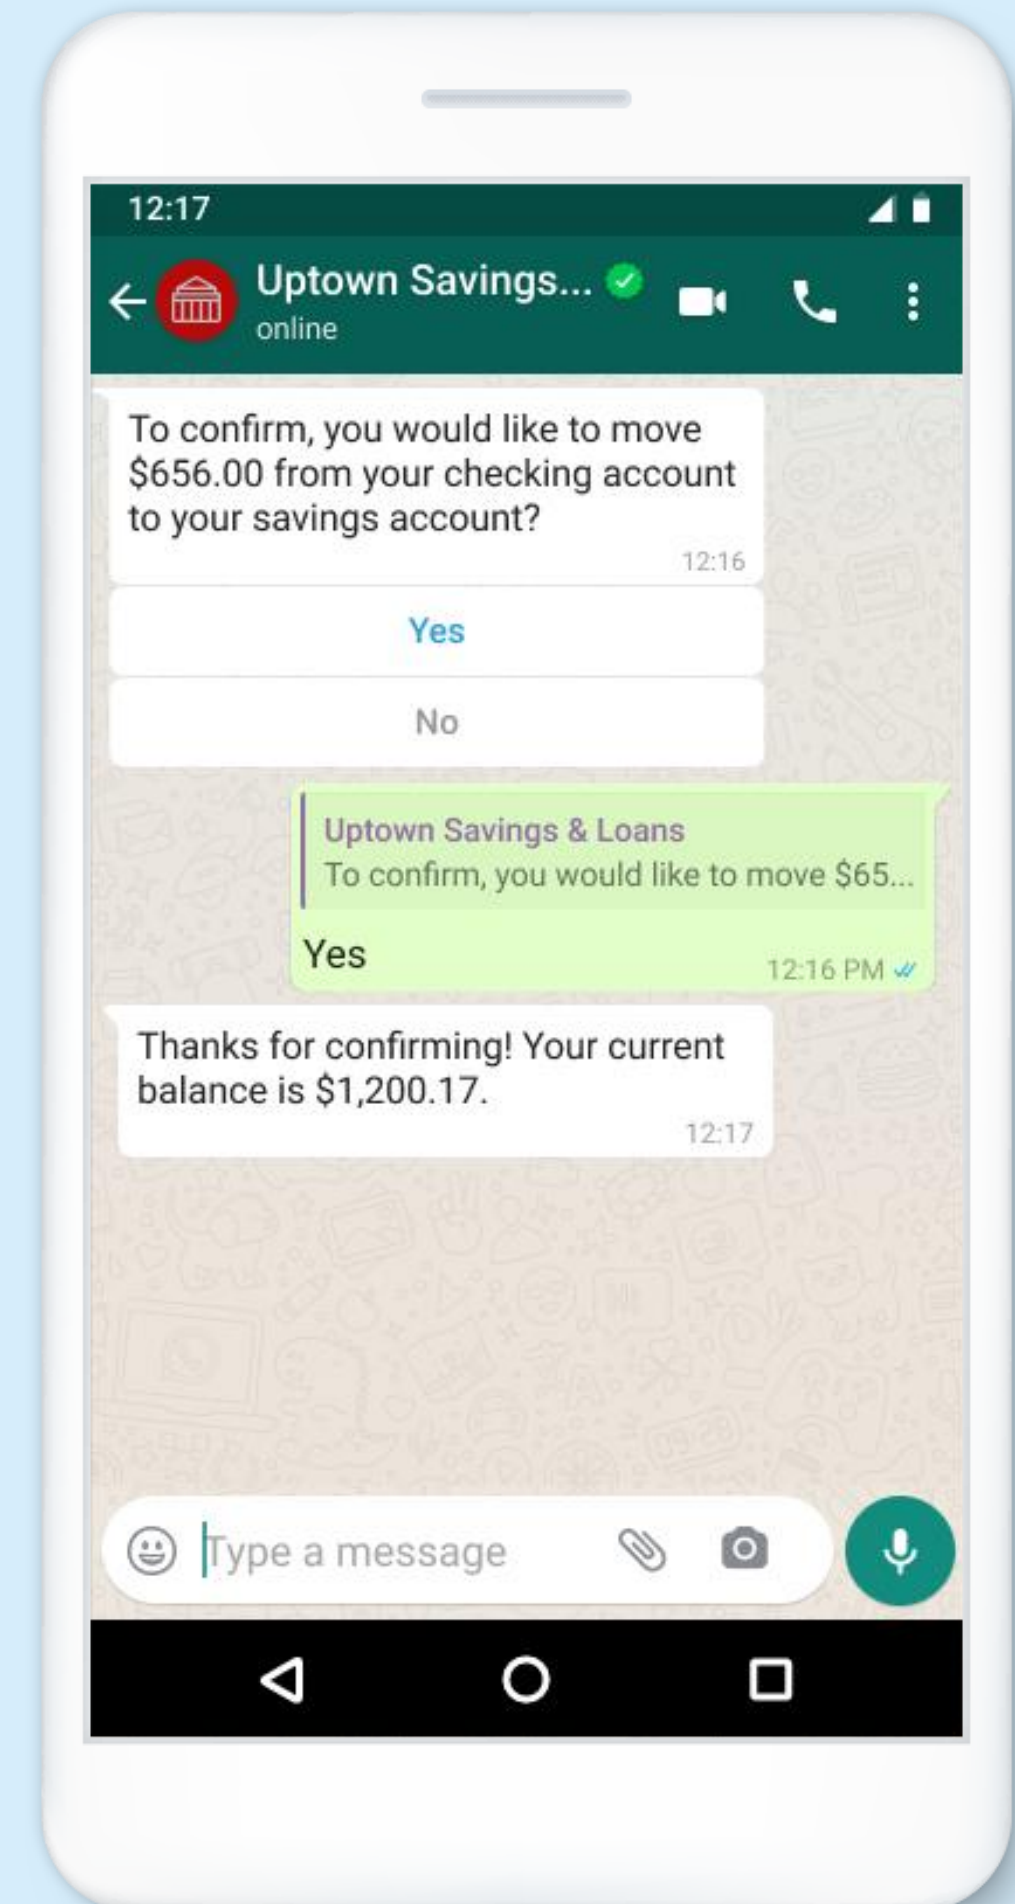

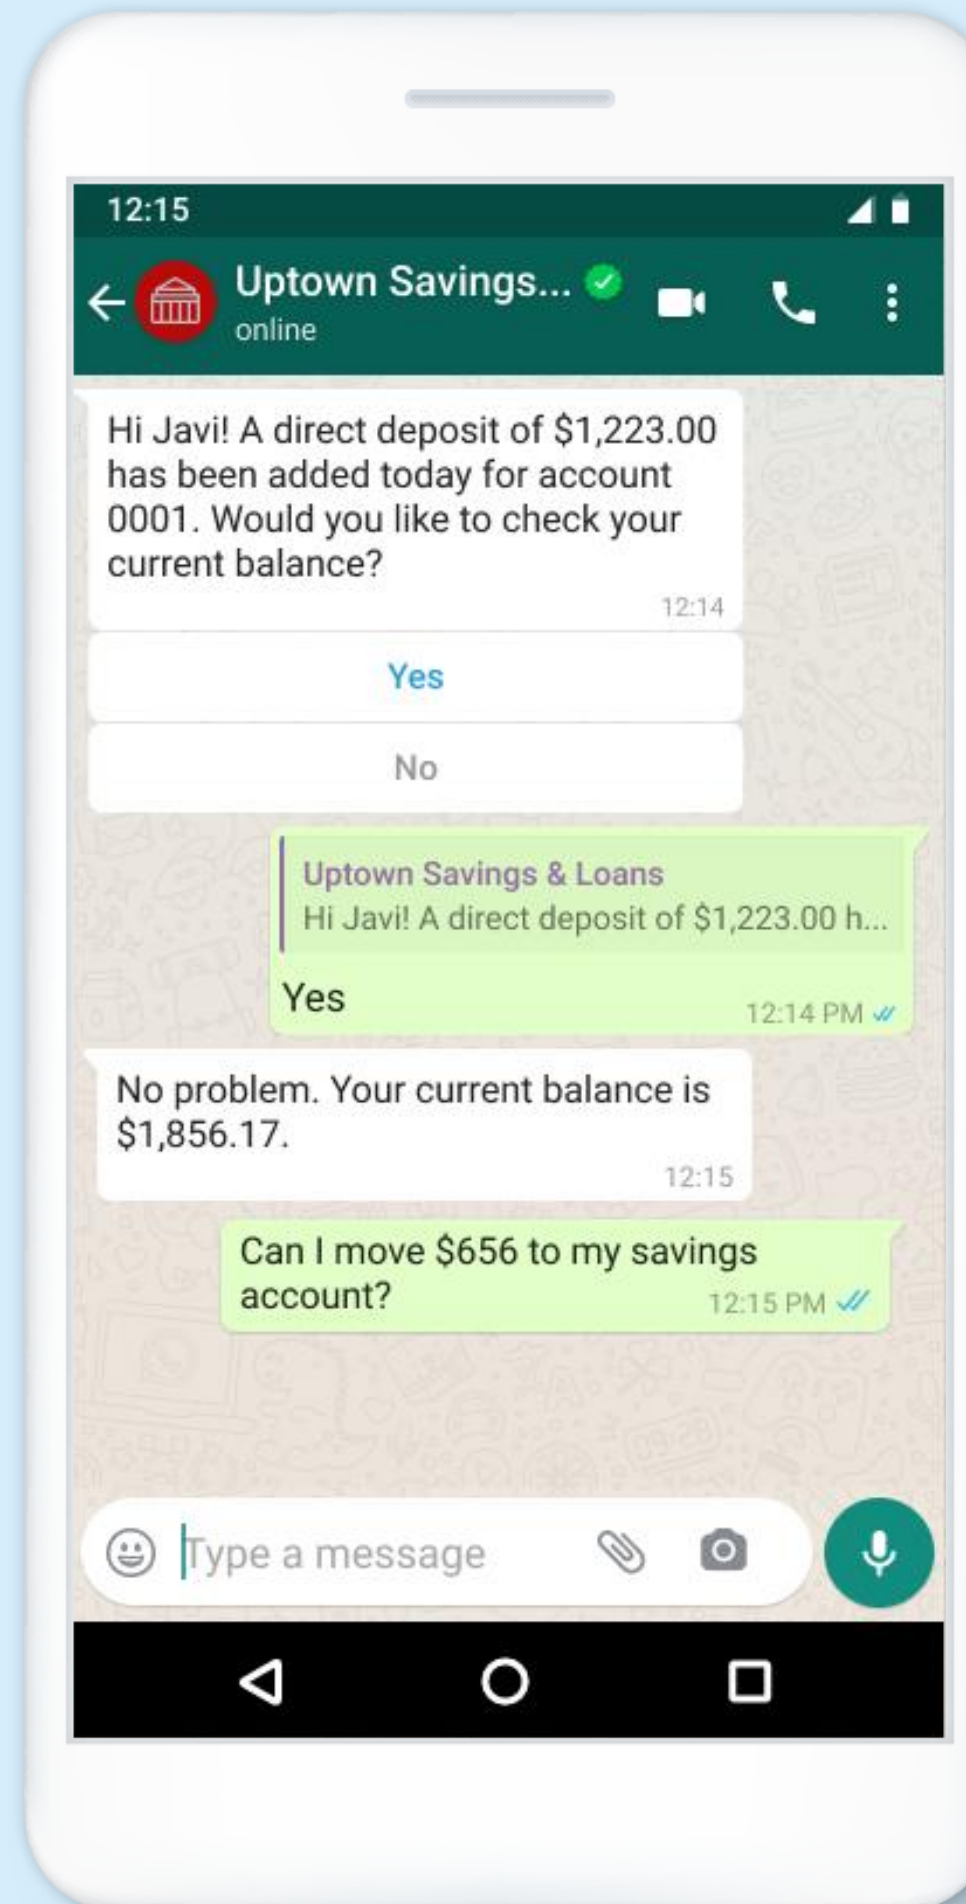

Transactions

use case:

Transfer of funds between accounts

Help customers stay on top of their finances with account alerts and simple transaction options.

A financial services organization reaches out to a customer to let them know about a new deposit made into their account.

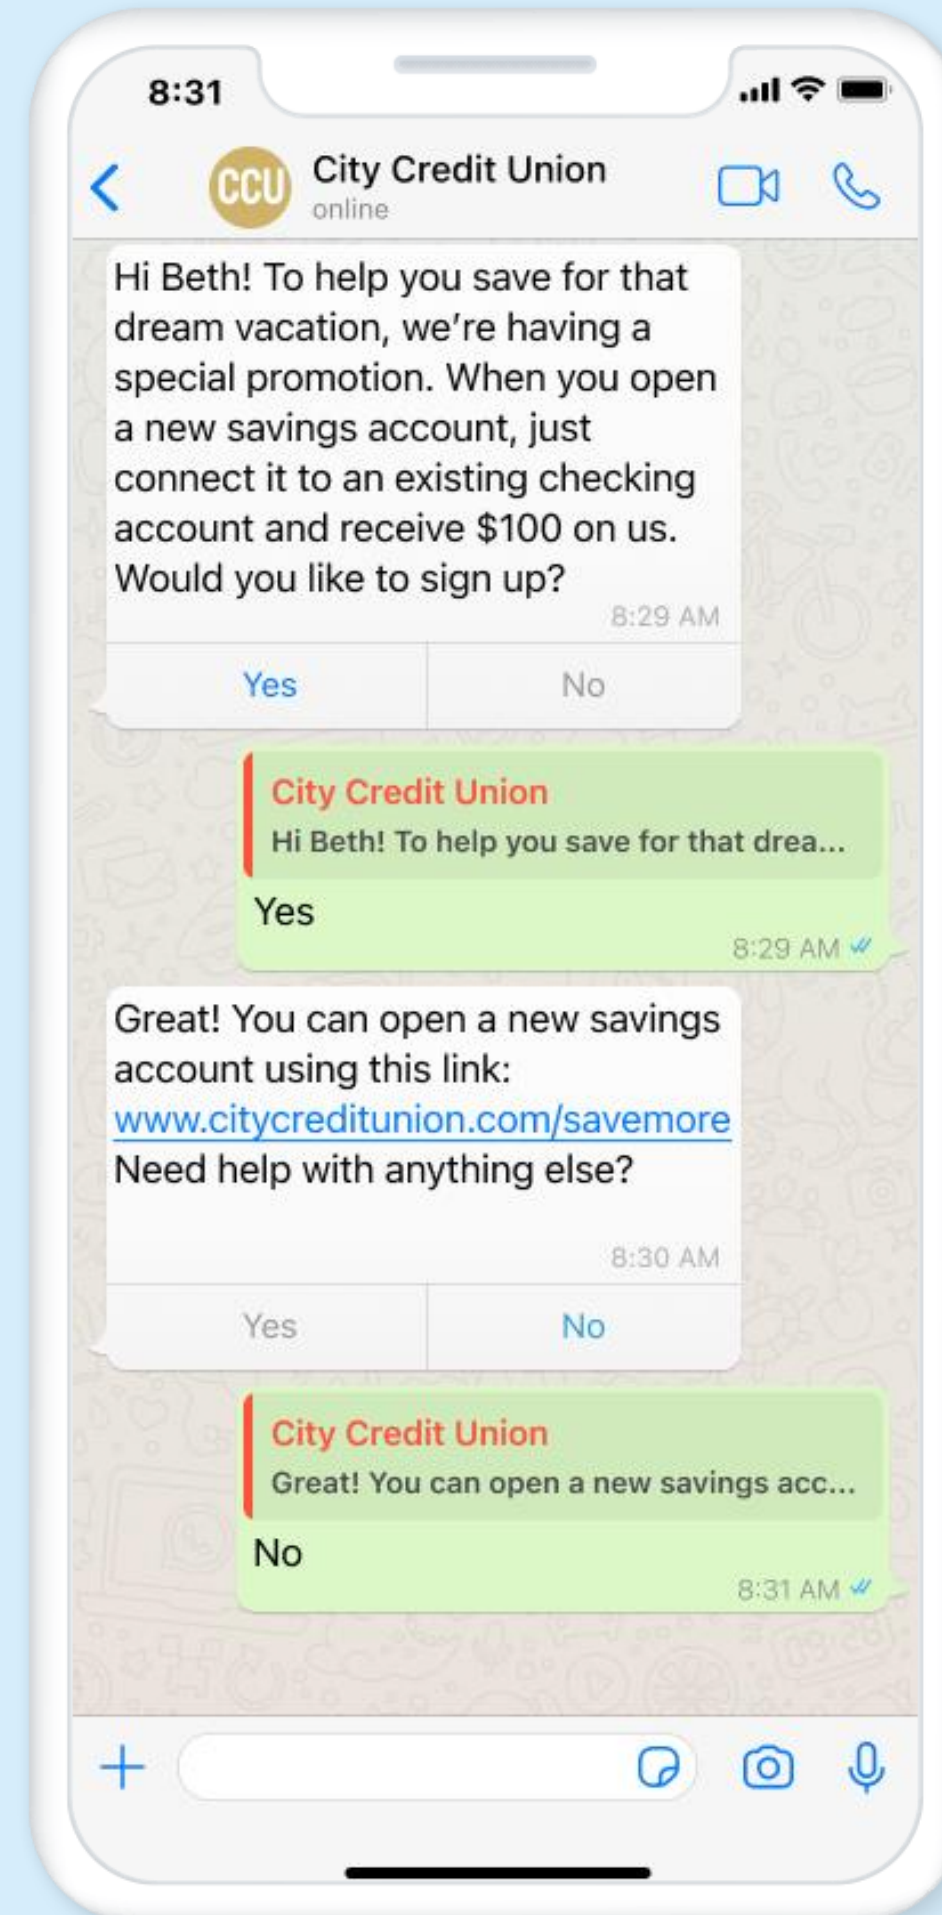

Transactions

use case:

Opening a new account

Boost savings rates by making it easy for customers to save for a rainy day (or a sunny beach).

A financial services organization reaches out to a customer to share a special product offer.

STAGE IN THE BUYER JOURNEY

Customer support

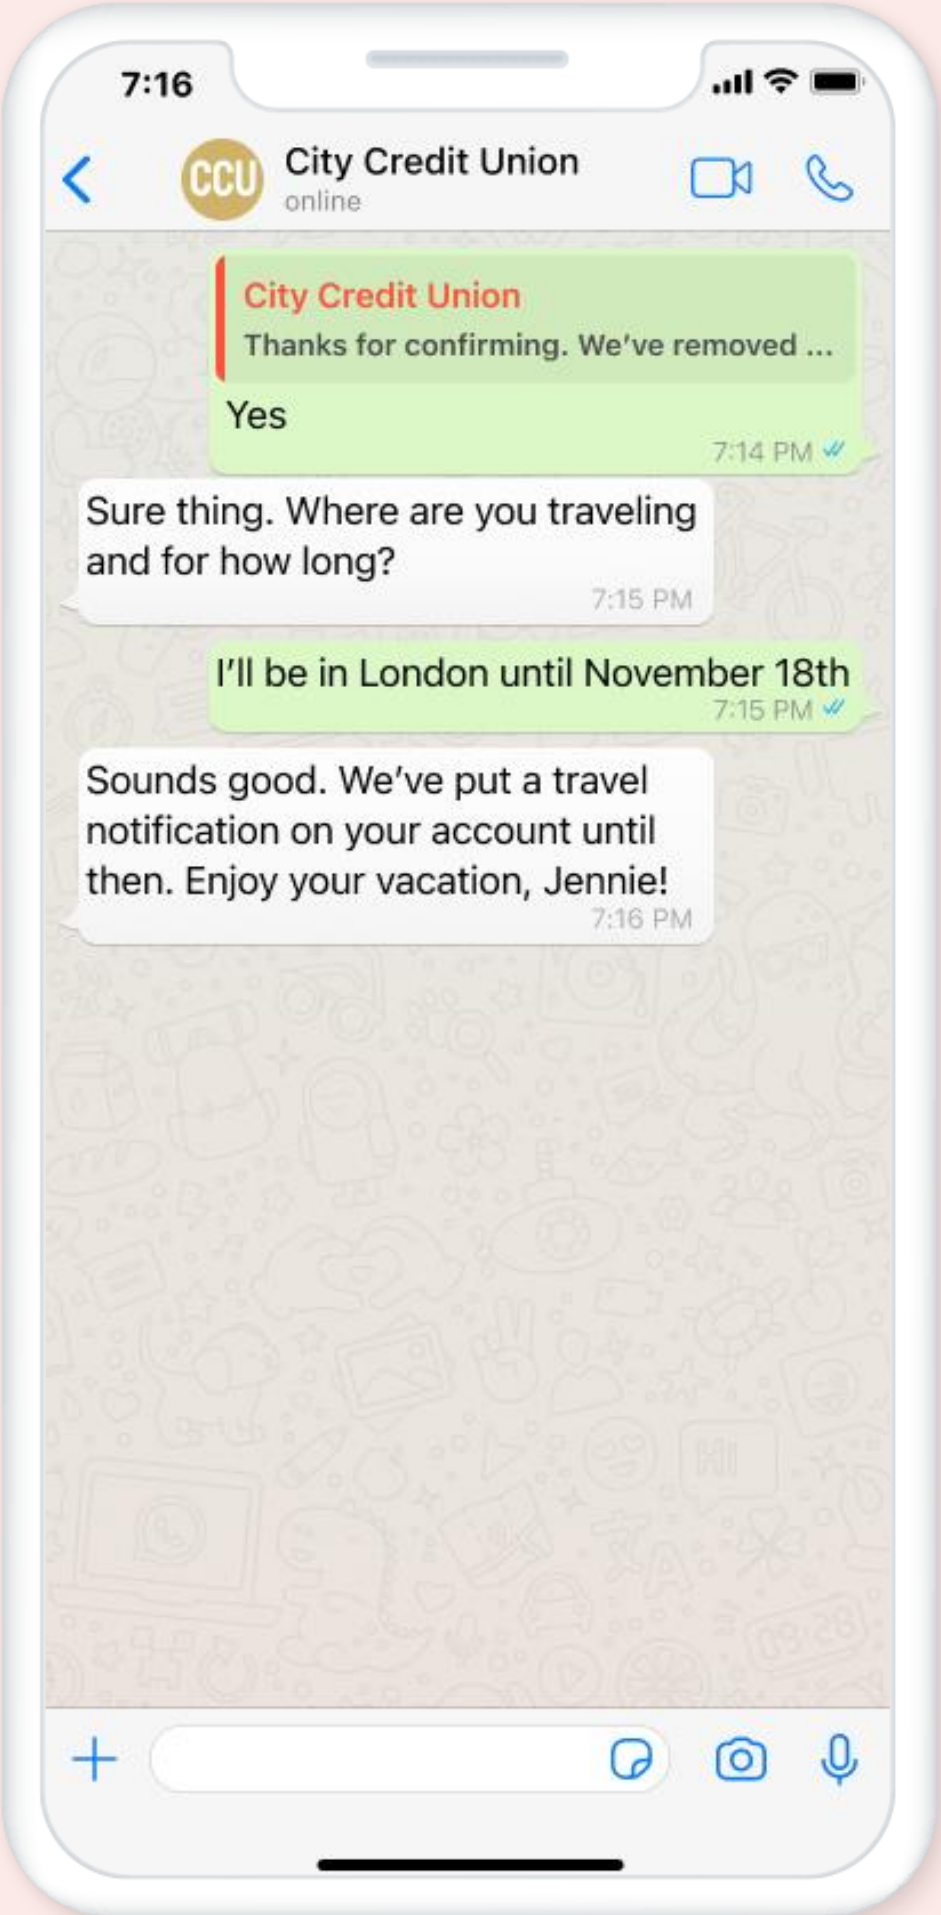

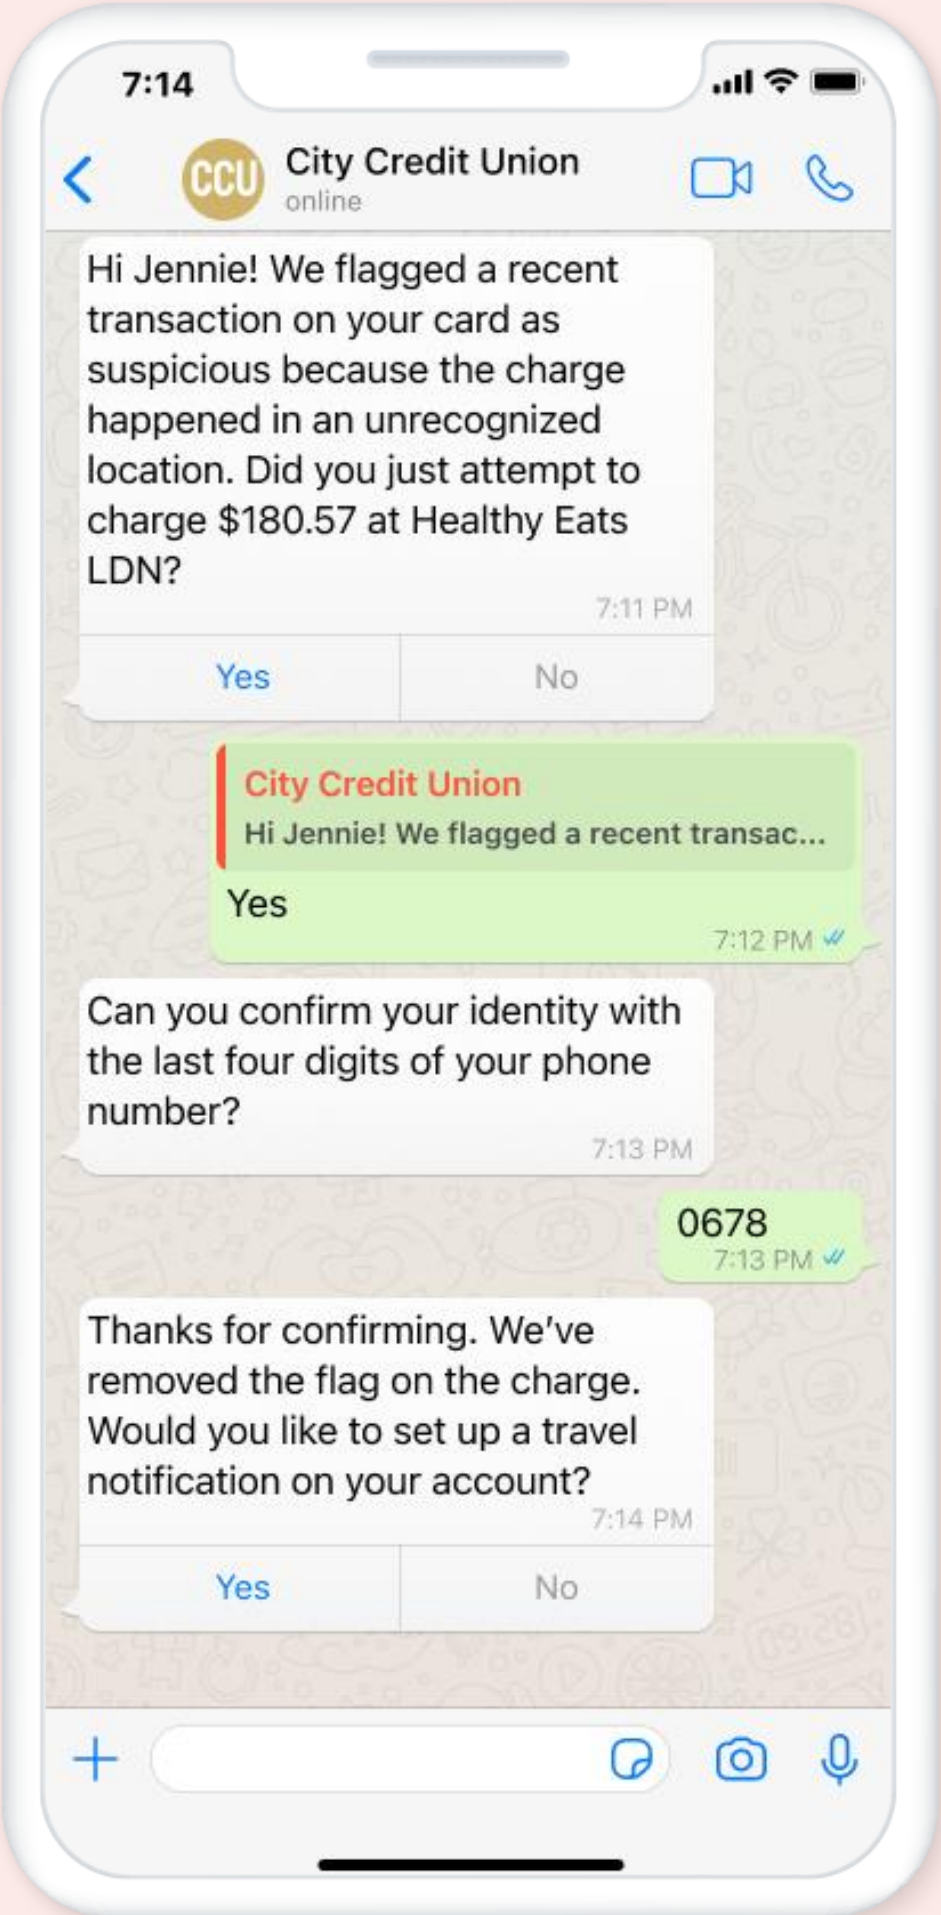

Give customers the support they need in seconds – 24 hours a day.

Customer support use case: Transaction verification

Reduce false flags on fraudulent transactions with proactive customer outreach.

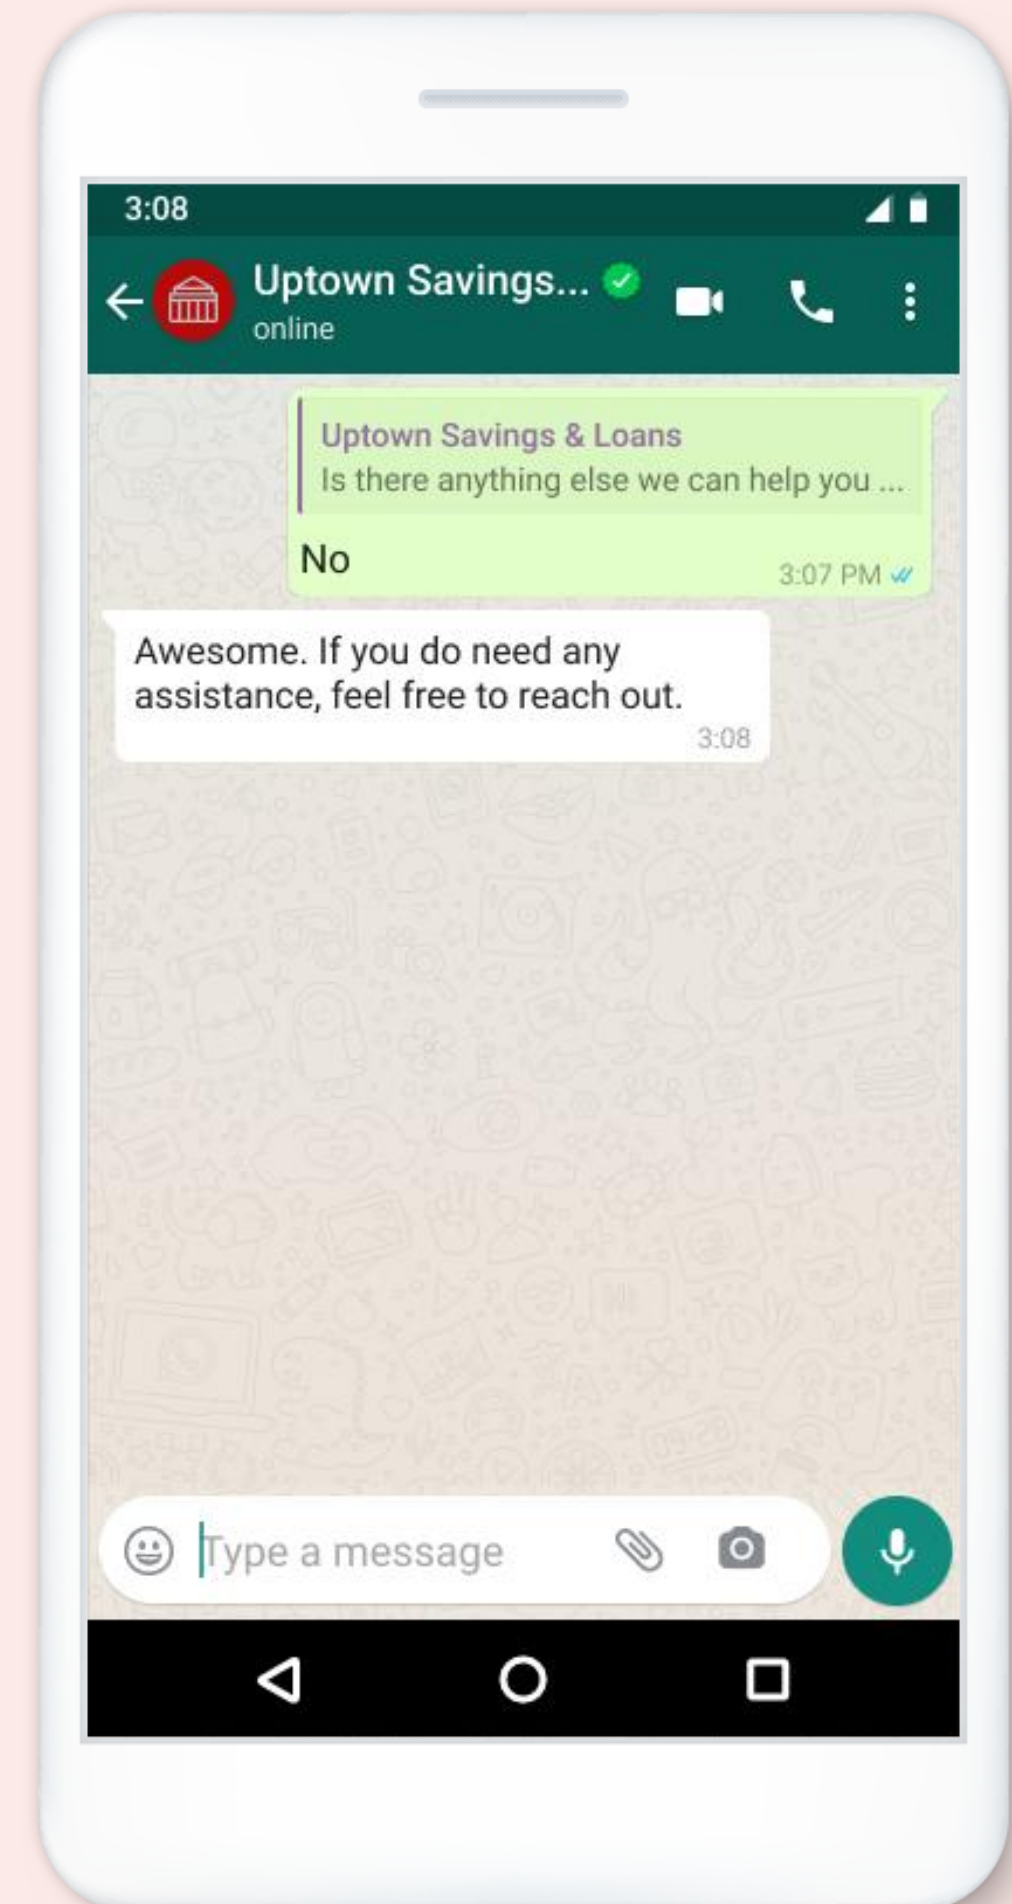

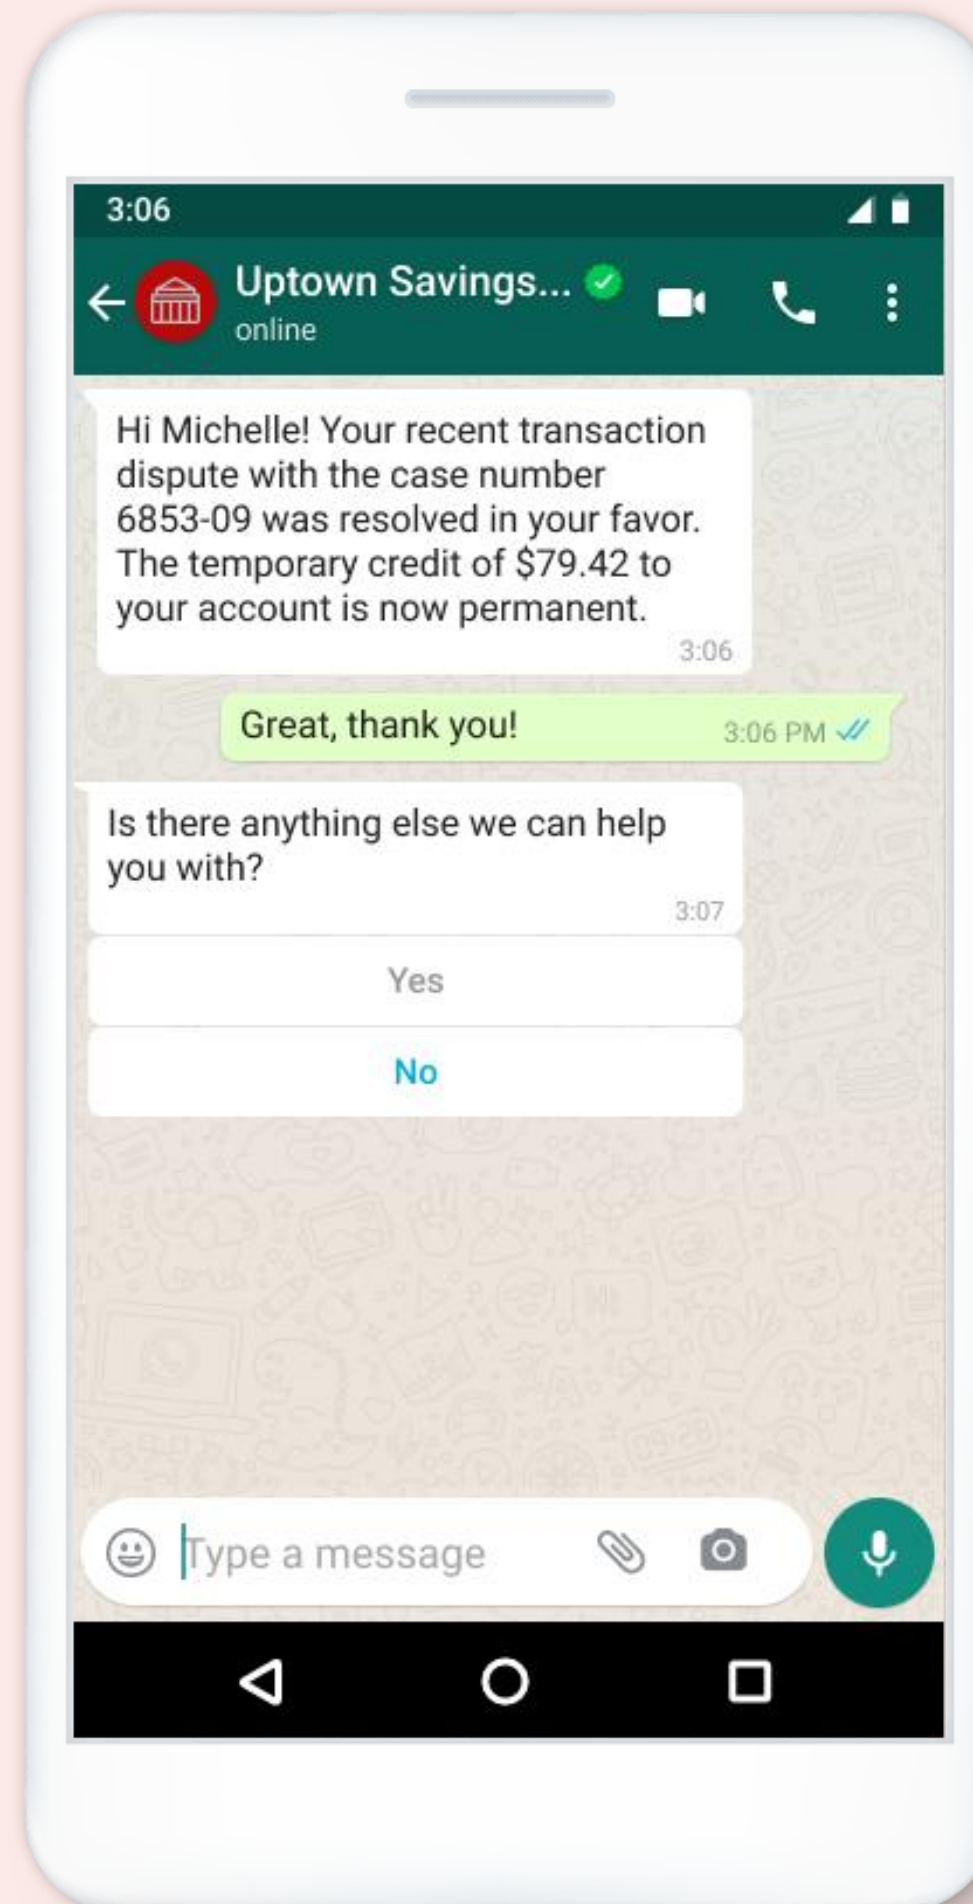

A financial services organization reaches out to their customer to verify a recent transaction.

Customer support use case: Transaction dispute resolution

Improve customer satisfaction by
providing timely updates on
recent issues.

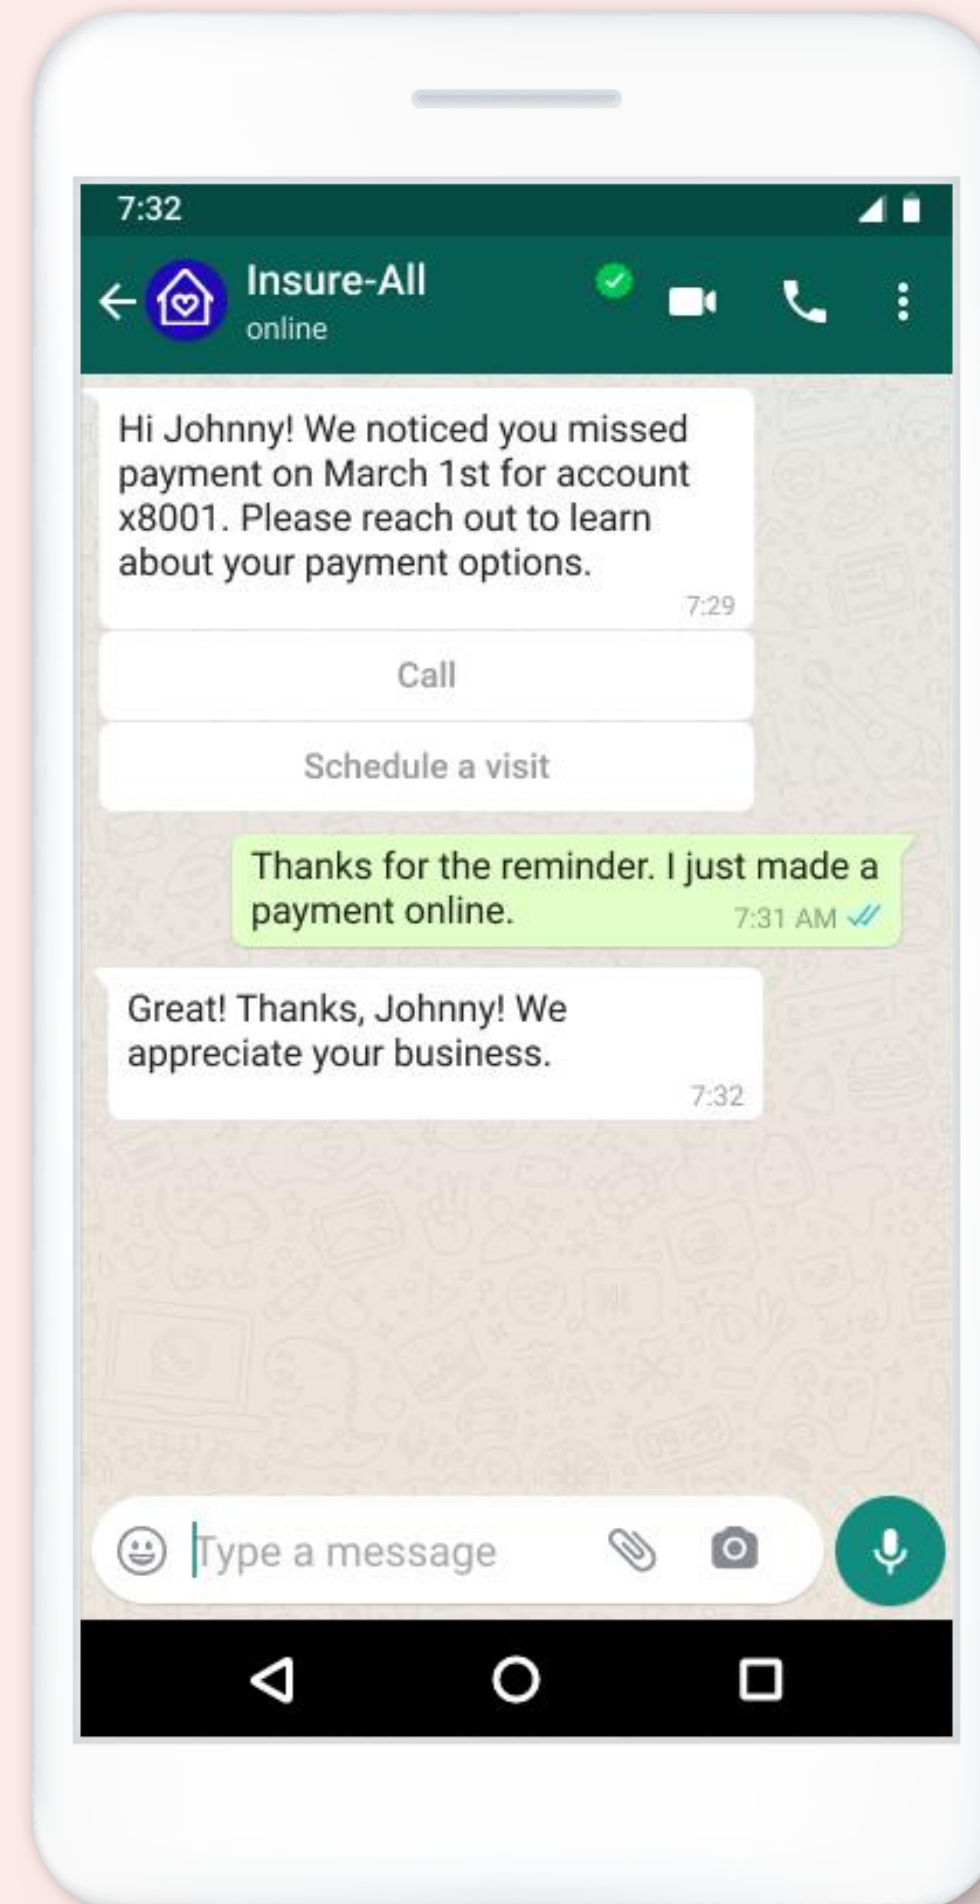

A financial services organization
reaches out to a customer to provide
an update on a recently flagged
charge.

Customer support use case: Missed payment

Make it easy for customers to keep their accounts in good standing with late payment alerts.

A financial service organization reaches out to a customer to alert them of a missed payment.

Next steps

Boost customer engagement
and sales

Start using these flows in your conversational outreach to engage directly with your customer base.

These sample flows can be a helpful guide to inform how you can keep messages simple, timely, and relevant when beginning a line of communication with your customer.

Think about when and where conversations like these can help drive critical business outcomes. Answering this question will help ensure your business's success when using the WhatsApp Business Platform.

75%

of adults surveyed want to be able to communicate with businesses in the same way they communicate with friends/family through messaging, 2020 research study says.
